

CONCRETE CLEANER PLUS

COMPLEX BLEND OF BUILDERS, SOLVENTS, & CONDITIONERS

DESCRIPTION:

CONCRETE CLEANER PLUS has been specifically designed to remove the grease, grime, and dirt that builds up on concrete floors without the use of toxic or flammable solvents. A super-concentrated blend of heavy-duty alkaline builders, water softeners, wetting agents, and emulsifiers make CONCRETE CLEANER PLUS a superior cost-effective industrial cleaner.

FOR USE ON:

Concrete and all other surfaces (masonry, brick, etc.) not harmed by high alkalinity. Do not use on marble or terrazzo flooring.

APPEARANCE:

Clear-to-slightly hazy blue liquid with mild fruity scent.

pH:

13-14

DIRECTIONS:

DO NOT ALLOW CONCRETE CLEANER PLUS TO DRY ON FLOOR - THOROUGHLY RINSE FLOOR AFTER USING.

For light cleaning of concrete floors and equipment: Dilute 1 or 2 ounces of CONCRETE CLEANER PLUS per 1 gallon of hot water. Using a suitable applicator, liberally apply solution to the floor and allow to sit for a few minutes. Machine-scrubbing the floor or using a scrub brush will increase the cleaning efficiency of the product. Next, using a wet-and-dry vacuum or mop, pick up dirty solution; then, rinse floor thoroughly with clean warm water.

CONCRETE CLEANER PLUS is ideal for use with an automatic scrubber or pressure washer system.

For heavy cleaning of concrete floors and equipment: Use above procedure except dilute 4 ounces of CONCRETE CLEANER PLUS for each gallon of hot water.

HEALTH & SAFETY:

WARNING! - DO NOT TAKE INTERNALLY

Avoid Contact with Skin or Eyes - This is a highly alkaline product which will cause severe skin and eye irritation. Wear suitable water-resistant gloves when using this product. Safety goggles are recommended if using pressure spray equipment.
