

DRY-FOAM CARPET & UPHOLSTERY SHAMPOO, OPTICAL BRIGHTENERS

DESCRIPTION:

DRITEK is a concentrated synthetic rug and upholstery detergent formulated to produce a stable dry foam that suspends soil, emulsifies greases, and dries rapidly.

DRITEK offers these distinct advantages:

- Works equally well in either dry foam or rotary shampoo machines.
- Carpets are ready for use in one hour or less when used in dry foam machines.
- Contains neutral biodegradable detergents — use on all water-safe fabrics.
- Contains an optical brightener to enhance the appearance of all carpeting.
- Contains a pleasant mild citrus perfume to leave carpets smelling fresh.

APPEARANCE:

Clear golden liquid.

pH:

9-10

DIRECTIONS:

For Use in Foam-Type Machines: For Normal Soiling: Use 1 part DRITEK with 10-12 parts lukewarm water. For Heavily Soiled Areas: Use 1 part DRITEK with 8 parts of lukewarm water. Remove furniture when possible and vacuum thoroughly. Shampoo in one pass of the machine, up in one direction, then back, overlapping about two inches. repeat across width of carpet. A wet-dry vacuum should be used at intervals to pick up suspended soil in foam, to set cut pile, and hasten drying. If furniture is returned to carpet before it is dry, place moisture-resistant pads under legs to prevent staining or bleaching.

Where machine cannot reach, shampoo by hand with brush dipped in shampoo solution.

For Use in Rotary Machines: Dilute 1 part DRITEK with 12-16 parts cool water. Release sufficient material to form a light cushion of suds. Avoid excessive soaking. Shampoo across the carpet and back, overlapping each time. On heavily soiled areas, double scrub, but do not release solution on second pass. A wet-dry vacuum should be used immediately after shampooing to set pile and remove soil.
