

# LIQUID HAND SOAP

## COCONUT OIL BASED HAND SOAP ~ GLYCERIN & ALOE

### DESCRIPTION:

Sanitek's Liquid Hand Soap is a pure soap product formulated to meet the chemical and physical requirements of Federal Specification P-S-624 Soap, Toilet (liquid).

Prepared from refined coconut oil, Liquid Hand Soap is a mild cleaner which leaves the skin soft and smooth. Because Sanitek uses only whole coconut oil, rather than fatty acid extracts, the natural glycerin found in the oil is retained. This adds emollient and moisturizing qualities lacking in fatty acid soaps.

A free-flowing liquid, Liquid Hand Soap safeguards and prolongs the life of liquid soap dispensers, eliminating the necessity for costly repairs and maintenance.

Sanitek Liquid Hand Soap may also be used in foam-generating type dispensers. A high quality, rich thick foam is produced providing outstanding feel and cleaning not seen in conventional detergent soaps.

Liquid Hand Soap offers these advantages:

- No synthetic detergents
- Contains Aloe Vera
- Smooths and softens skin
- Outstanding feel when used in foaming dispensers
- Cost-effective

### FOR USE WITH:

Nearly all bulk-fill type dispensers made from stainless steel or plastic, including foaming hand soap dispensers.

### FOR USE IN:

Schools, health-care (hospitals, clinics, nursing homes, etc.), food handling establishments (restaurants, cafeterias, etc.), office buildings, factories, and other commercial facilities.

### APPEARANCE:

Clear yellow-green liquid with mild fragrance.
